Dear distinguished graduates,

“Aspire today, inspire tomorrow” has been Aspire Academy’s slogan since its opening seventeen years ago. This slogan has really proved its validity and viability with hard work, diligence, commitment and love for the nation.

Graduates preceding you have succeeded in making achievements worthy of our beloved country Qatar, either as individuals or teams, in various sports events as well. However, this year, more specifically 2022, you were lucky, that the value and importance of the academy’s slogan was discovered on the ground.

It is well known that in 2022, Qatar will host FIFA World Cup finals, for the first time ever in the Arab and Middle East Region. It is also known that former Aspire Academy graduates, besides the technical and medical staff, are the pillar of the Qatari squad participating in the World Cup. These, in particular, have become stars after fulfilling their dream, and have become the center of interest for all football followers around the world, next November and December.

It is undoubtedly a unique experience for them, and an incentive for you to follow their steps in the future, each in his field or sport.

Dear graduates,

Millions of talents in sports around the world, not just in our region, see that you are lucky because of the resources you and your predecessors had during your studies and training period. So, how will you prove to yourself first and then to them that you deserve the golden opportunity you have been given?

You will prove this with more work and effort, faith in your own abilities, and recording achievements in Qatar and abroad. This is up to each and every one of you graduates.

Now, has come the opportunity to get you started to life and face competitions and challenges, and always remember in the future - in case you get frustrated, which is always possible - that you have received your education and sports training at the highest levels at Aspire Academy, and you have been medically followed up at Aspetar Hospital like many of the world’s stars, and you have been sponsored by Aspire Zone Foundation, which has provided you with all the infrastructure necessary to get started to professionalism and championships. When you remember this, there is no place for retreat or surrender, for you are champions in sports and in life, and champions cherished by their homeland in exchange for their love, giving and loyalty.

All the best.

Aspire Academy

Dear graduates,

This year, and after a couple of years where the Covid-19 pandemic prevented us from meeting in Aspire lovely campus, I'm speaking to you with incomparable joy and excitement to congratulate you in this joyful occasion.

Dear parents,

We are honored to have the real connections with you to witness such a precious moment together. I propose, let us send the warmest applause to the 2022 graduates, congratulating them on their successful completion of the high school. At the same time, we would like to sincerely thank every parent, thank you for your trust and support to the school, and thank all the education staff for their dedicated teaching and care, and thank all Aspire departments for their remarkable efforts in training, supervising, and facilitating the mission of graduating champions in sports and life.

Dear graduates, you came to our Academy and started a beautiful journey of life. Over the past few years, you have been working hard, chasing persistently, and living happily to lay a solid foundation for a better future. You have learned the study skills, how to develop good habits, how to be good persons, eventually you managed to apply for good universities with excellent results or to seek different life careers in sports and job market to prove that our Academy is moving towards a first-class international academy for sports excellence.

Dear students, graduation is only the end of high school, but a second phase of your life has just begun. In the future, I hope that all of you can remember the letter "R" in our education slogan: "Responsibility, Respect, and Readiness". Be a Responsible person with a broad vision, for loyalty and commitment to our mission and to develop a sense of responsibility for the family, the country, and the future career.

Remember that Respect is an attitude and a philosophy of life. It is the basic personality of a modern citizen. Only those who are Respectful will understand the importance of Respect and learn to be so. I also hope that you will remember the last "R" in the ESA slogan, for Readiness, to cultivate yourself as a person with complete personality. Always be thankful and look at the world with noble style and love, be a person who will persist and have a dream of excellence.

There is a famous saying in China: "Do not forget your heart and follow it until the end". As long as you have dreams, goals, and perseverance, you will achieve your outstanding life. After these "3Rs", add Excellence. What I want to tell you is that in the process of chasing dreams, people will face difficulties, experience failures, and expect to be disappointed or embarrassed. At this time, I hope that you will tell yourself to take the courage to come again, to choose responsibility, to build up strength for growth, and follow your dreams.

My dear sons, leaving the Academy gate, the door to the world is open to you. Sons! do remember to come back and visit us. Our Academy will miss you and look forward to seeing a better you!

Jassem Al-Jaber
School Principal
Aspire Academy

Dear graduates,

Graduation is always such a special occasion, the peak of years of hard work; the actualization of goals attained, and the credit of successes achieved. So, we celebrate the road that we have all traveled together these last few years with many successes. Learn from every challenge because every challenge faced is an opportunity to learn and let you figure out what is the next right move.

When you joined Aspire academy, you've got to find what you love, and that is as true for your future career as it is for your family. Your passion is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great work, and the only way to do great work is to love what you do. If you haven't found it yet, keep looking. Don't settle. As with all matters of the heart, you'll know when you find it.

But let's begin where all good stories begin - at the beginning! It has been a journey that started with tentative steps starting from your nomination to Aspire academy, the one that has taken us to remarkable heights. We have experienced exceptional moments and created memories that will be lovingly remembered in the years ahead.

Henry Ford wisely said, "Coming together is a beginning; keeping together is a progress and working together is a success." As we look back over the last few years, certainly there was a beginning, and thankfully there was also progress and yes - undeniably we have been successful!

Who can forget when we all came together for the first time - nervous young students, proud parents, and a dedicated education staff? What a commencement ceremony it was, signaling what would be the start of wonderful things to come. Yes, we all came together with a common purpose in mind - to encourage and develop lifelong learning in the young student-athletes who we are celebrating this year.

You are leaving with a special high school certificate that is accredited by the CIS, which means that the doors of top-quality universities are opened for you because you have received education with a better understanding of the student-athletes character, needs and commitments. And the learning skills you have gained will let you succeed in different life paths.

Dear parents, the end result of our working together, cooperating together and communicating openly, in spite of the obstacles that we have faced along the way, is graduating the class of 2022. How proud we are of the success that they have made with the opportunities that they were offered. Congratulations to the parents and you - my dear sons, we are proud of you all!

Dear education staff, I would like to thank you all for your great efforts in educating and caring about your students, without your dedication, none of these achievements would be possible.
